PROFILE

I am a proficient full-stack software engineer. Building scalable, user-friendly applications that improve user experience and company efficiency is my area of expertise, and I have a solid foundation in both frontend and backend programming.I concentrate on producing secure, high-performing, and maintainable software solutions rather than just writing code. Web application development, database administration, authentication system implementation, payment integration, and UI/UX optimization for smooth interaction are all areas in which I have experience.

EDUCATION

Larry Computer Academy, *Software Engineering* 06/2021 | Lagos, Nigeria

PROFESSIONAL EXPERIENCE

Xpertech Solutions, *Development Team Lead* Lagos, Nigeria

• Implement code review standards and best practices to ensure high-quality software releases and maintain system reliability.

• Mentor and develop team members' technical skills, fostering continuous improvement and increasing productivity within the development group.

• Analyze project risks and resource constraints to optimize allocation, minimizing delays and supporting consistent achievement of deadlines.

Larry Computer Academy, Lagos, Nigeria

Web & Software Development and engineering Instructor

• Develop comprehensive curricula that integrate practical coding exercises and theoretical concepts to improve student engagement and knowledge retention.

• Evaluate student projects and assignments to ensure adherence to industry standards and promote high-quality software development practices.

Xpertech Solutions, *Web Developer Intern* Lagos, Nigeria

• Developed responsive user interface components to improve accessibility and consistency across multiple web browsers and devices.

• Collaborated with designers to translate wireframes into functional web pages, increasing user engagement through intuitive layouts.

Bucapay, *PHP Laravel Developer* Lagos, Nigeria

• Developed and maintained RESTful APIs using Laravel to ensure seamless data exchange and improve application responsiveness for end users.

• Enhance user interface consistency and engagement across platforms.

• Optimized database queries and schema design within Laravel applications to increase system reliability and reduce server response times.
• Collaborated with QA teams to create automated tests that improved code quality and minimized deployment errors in production environments.

CompellersHub, *MERN Full Stack Developer* Lagos, Nigeria
• Developed RESTful APIs using Node.js and Express to ensure seamless data exchange and improve application reliability.
• Implemented responsive user interfaces with React that enhanced user engagement and accessibility across multiple devices.
• Optimized MongoDB database schemas and queries to increase data retrieval speed and support scalable application growth.

SKILLS

HTML & CSS, Javascript, Wordpress, TypeScript, React.js, Bootstrap 5, PHP, Python, Django, MySQL Database, Codeiginter 4&3, Laravel, Mongo DB, Next.js, Version Control/Git, Material UI, Node.js, API development and integration, SEO, Responsive Web Design

CERTIFICATES

- Certificate in full stack software engineering
- Certificate in Web Development
